Vancouver, British Columbia, September 17, 2019 – Scottie Resources Corp. (“Scottie” or the “Company”) (TSXV: SCOT) announced today that it will increase the size of its previously announced non-brokered private placement of flow-through common shares (the “FT Shares”) and non-flow-through units (the “NFT Units”) (see news release dated September 11, 2019) from up to \$1,750,000 to up to \$2,550,000 (the “Offering”).

Up to 3,409,091 FT Shares will be sold at a price of \$0.22 per FT Share, and up to 12,000,000 NFT Units will be sold at a price of \$0.15 per NFT Unit consisting of one common share and one common share purchase warrant. One common share purchase warrant from the NFT Units will entitle the holder to purchase one non flow-through common share of the Company at a price of \$0.22 for a period expiring 24 months following the closing date of the Offering. If the closing price of the Issuer’s common shares is at a price equal to or greater than \$0.29 for a period of 10 consecutive trading days, the Issuer will have the right to accelerate the expiry date of the warrants by giving written notice to the holders of the warrants that the warrants will expire on the date that is not less than 30 days from the date notice is provided by the Issuer to the warrant holders.

Finder’s fees may be payable in connection with the Offering. All the securities issuable will be subject to a four-month hold period from the date of closing.

The proceeds from the sale of FT Shares will be used for exploration programs on the Company’s British Columbia properties, and the proceeds from the sale of NFT Units will be used for general working capital.
