SCOTTIE RESOURCES CORP.

Notes to the Financial Statements

November 30, 2019

(Stated in Canadian Dollars)

(Unaudited – Prepared by Management)

1. Corporate Information

Scottie Resources Corp. (formerly Rotation Minerals Ltd.) (the “Company”) is an exploration stage company incorporated on November 24, 2009 in British Columbia, Canada. Its principal business activity is the acquisition, exploration and evaluation of mineral properties located in British Columbia, Canada. The Company’s common shares are listed for trading on the TSX Venture Exchange (“TSXV”) under the symbol “SCOT”.

The Company’s registered and records address is PO Box 48202 Bentall, Vancouver, British Columbia, V7X 1H8.

2. Basis of Preparation

a) Statement of Compliance

These condensed interim financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) and in accordance with International Accounting Standard (“IAS”) IAS 34 “Interim Financial Reporting”.

These condensed interim financial statements do not include all of the information and disclosures required to be included in annual financial statements prepared in accordance with IFRS. These condensed interim financial statements should be read in conjunction with the Company’s audited annual financial statements for the year ended August 31, 2019.

These financial statements were authorized for issue on January 28, 2020 by the directors of the Company.

b) Basis of Measurement

These financial statements have been prepared using the historical cost basis except for financial instruments that have been measured at fair value.

The financial statements are presented in Canadian dollars, which is the Company’s functional currency and presentation currency.

The preparation of financial statements in compliance with IFRS requires management to make certain critical accounting estimates. It also requires management to exercise judgement in applying the Company’s accounting policies. The areas involving a higher degree of judgement of complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 4.

2. Basis of Preparation – (cont'd)

c) Going Concern

As at November 30, 2019, the Company has a working capital deficiency of \$550,160 and an accumulated deficit of \$5,466,254. In addition, the Company has not generated revenues from operations and it expects to incur further losses in the exploration and evaluation of its mineral properties. These financial statements have been prepared on a going concern basis which assumes that the Company will be able to realize its assets and discharge its liabilities in the normal course of business for the foreseeable future. The Company has not yet determined whether its mineral properties contain economically recoverable reserves. The recoverability of the amounts shown for exploration and evaluation assets is dependent upon the confirmation of economically recoverable reserves, the Company's ability to obtain adequate financing to develop the reserves, and its ability to commence profitable operations in the future. These conditions indicate material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern.

The Company has been able to fund operations and mineral property exploration through equity financings. Uncertainty in the financial equity markets may make it difficult to raise capital through the private placement of shares. The junior mining industry is considered speculative in nature which could make the Company more difficult to fund. While the Company is using its best efforts to achieve its business plans by examining various financing alternatives, there is no assurance that the Company will be successful with its financing ventures.

These financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

3. Significant Accounting Policies

New and revised standards and interpretations

Accounting policies used in the preparation of these financial statements are consistent with those described in the Company's audited annual financial statements for the year ended August 31, 2019, except for the following change to IFRS, which were adopted as at September 1, 2019:

IFRS 16, Leases:

This new standard eliminates the classification of leases as either operating leases or finance leases and introduces a single lessee accounting model which requires the lessee to recognize assets and liabilities for all leases with a term of longer than 12 months.

The Company has no leases as at August 31, 2019 or November 30, 2019, therefore the adoption of IFRS 16 did not have a material impact on the Company's condensed interim financial statements.

4. Critical Accounting Estimates and Judgments

The Company makes estimates and assumptions about the future that affect the reported amounts of assets and liabilities. Estimates and judgments are continually evaluated based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. In the future, actual experience may differ from these estimates and assumptions. The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive income in the period of the change, if the change affects that period only; or in the period of the change and future periods, if the change affects both. Information about critical judgments in applying accounting policies that have the most significant risk of causing material adjustment to the carrying amounts of assets and liabilities recognized in the financial statements within the next financial year are discussed below:

a) Exploration and Evaluation Expenditures

The application of the Company's accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. If, after expenditure is capitalized, information becomes available suggesting that the recovery of expenditure is unlikely, the amount capitalized is written off in the profit or loss in the period the new information becomes available.

4. Critical Accounting Estimates and Judgments – (cont'd)

b) Rehabilitation Provisions

Rehabilitation provisions have been determined to be \$Nil based on the Company's internal estimates. Assumptions, based on the current economic environment, have been made which management believes are a reasonable basis upon which to estimate the future liability. These estimates take into account any material changes to the assumptions that occur when reviewed regularly by management. Estimates are reviewed annually and are based on current regulatory requirements. Significant changes in estimates of contamination, restoration standards and techniques will result in changes to provisions from period to period.

c) Share-Based Payments

The Company uses the Black Scholes Option Pricing Model for valuation of share-based payments. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company's earnings and equity reserves.

d) Valuation of Deferred Tax Assets

The Company makes a determination of whether it is likely that future taxable profits will be available to utilize against any deferred tax assets.

5. Exploration and Evaluation Assets

a) Four J's

By an option agreement with a company with a director in common with the Company dated August 9, 2010, and last amended on September 8, 2017, the Company had the option to acquire a 50% interest in the Four J's Property located near Stewart, British Columbia. Consideration to earn the 50% interest was \$180,000 in cash and exploration expenditures of \$1,800,000.

On August 9, 2018, the Company determined that it would not proceed with the Four J's option agreement. As a result, the Company recorded a write-off of \$609,123 in the year ended August 31, 2018 representing the accumulated acquisition and exploration costs incurred on the Four J's property.

b) Black Hills

The Company owns a 100% interest in the Black Hills property located in the Golden Triangle mining district of British Columbia. In 2013, the Company purchased the Black Hills mineral claims for \$10,000 from a company that was managed by a former director of the Company. The Company staked additional claims at Black Hills at a cost of \$1,680 during the year ended August 31, 2018.

c) Scottie

The Company owns a 100% interest in the Scottie Property. The Scottie property is located in the Golden Triangle mining district of British Columbia.

The property is subject to a 3% net smelter return royalty. The Company has the right to purchase 2% for \$600,000.

d) Stock

The Company staked a 100% interest the Stock property. The Stock property is located south of the Company's Scottie property in the Golden Triangle mining district of British Columbia.

e) Ruby Silver

On March 9, 2018, the Company purchased a 100% interest in the Ruby Silver property located in the Golden Triangle mining district of British Columbia for \$100,000.

f) Bow

On December 12, 2018, the Company entered into an option agreement with another public company with a director in common with the Company to acquire a 100% interest in the Bow property located in the Golden Triangle mining district of British Columbia. The Bow is subject to a 3% net smelter return royalty. The Bow is contiguous with the Company's Scottie property.

The terms of the option agreement call for cash payments totalling \$1,000,000 to be paid as follows:

- \$200,000 on TSXV approval of the option agreement (paid);
- \$200,000 on or before June 12, 2019 (paid);
- \$200,000 on or before December 12, 2019 (paid subsequent to period end);
- \$200,000 on or before June 12, 2020; and
- \$200,000 on or before December 12, 2020.

In the event that all the payments are not made, the Company will have no interest in the Bow property.

g) Bitter Creek

On March 1, 2019, the Company entered into an option agreement to acquire a 100% interest in the Bitter Creek property located in the Golden Triangle mining district of British Columbia. Bitter Creek is subject to a 2.5% net smelter return royalty. Bitter Creek is contiguous with the Company's Black Hills and Ruby Silver properties.

The terms of the Agreement call for payments totalling \$850,000 to be paid as follows:

- \$5,000 upon signing of the agreement (paid);
- \$10,000 within five business days of receiving TSXV approval of the agreement. TSXV approval was received on March 20, 2019 (the "Approval Date") (paid);
- \$60,000 within five business days of the Approval Date - payable in cash or in common shares of the Company, at the election of the Company (paid in cash);
- \$75,000 within 6 months of the Approval Date - payable in cash or in common shares of the Company, at the election of the Company (paid in cash);
- \$100,000 within 12 months of the Approval Date - payable in cash or in common shares of the Company, at the election of the Company;
- \$100,000 within 18 months of the Approval Date - payable in cash or in common shares of the Company, at the election of the Company;
- \$100,000 within 24 months of the Approval Date - payable in cash or in common shares of the Company, at the election of the Company;
- \$100,000 within 30 months of the Approval Date - payable in cash or in common shares of the Company, at the election of the Company;
- \$150,000 within 36 months of the Approval Date - payable in cash or in common shares of the Company, at the election of the Company;
- \$150,000 within 42 months of the Approval Date - payable in cash or in common shares of the Company, at the election of the Company;

Any payments made in common shares of the Company will be based on the volume weighted average trading price of the Company's common shares for the five consecutive trading days preceding the share issue date.

The Company may purchase 60% of the net smelter return royalty for \$1,500,000.

h) Summit Lake

On April 26, 2019, the Company entered into an option agreement to acquire a 100% interest in a land package directly adjacent to the Scottie property known as the Summit Lake property. The mineral claims comprising the land package cover 1,583 hectares.

The terms of the option agreement call for cash payments totalling \$250,000 to be paid as follows:

- \$50,000 on TSXV approval of the option agreement (paid);
- \$50,000 on or before April 26, 2020;
- \$50,000 on or before April 26, 2021;
- \$50,000 on or before April 26, 2022; and
- \$50,000 on or before April 26, 2023.

The terms of the option agreement call for share payments totalling 2,200,000 common shares to be issued as follows:

- 200,000 on TSXV approval of the option agreement (issued);
- 400,000 on or before April 26, 2020;
- 500,000 on or before April 26, 2021;
- 500,000 on or before April 26, 2022; and
- 600,000 on or before April 26, 2023.

The Summit Lake property is subject to a 1.8% gross smelter return royalty. The Company has the right to purchase 0.8% of the royalty for \$1,000,000 at any time.

The Company also staked additional adjacent mineral claims for \$13,695.

10. Financial Instruments

Cash is carried at FVTPL, Reclamation bonds, accounts payable and accrued liabilities, loans payable and due to related parties are carried at amortized cost. The Company considers that the carrying amount of these financial assets and liabilities measured at amortized cost to approximate their fair value due to the short-term nature of the financial instruments.

Fair value estimates of financial instruments are made at a specific point in time, based on relevant information about financial markets and specific financial instruments. As these estimates are subjective in nature, involving uncertainties and matters of significant judgment, they cannot be determined with precision. Changes in assumptions can significantly affect estimated fair values.

The Company's financial instruments are exposed to certain financial risks. The risk exposures and the impact on the Company's financial instruments are summarized below.

Credit Risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Company's cash is exposed to credit risk. The Company reduces its credit risk on cash by placing these instruments with institutions of high credit worthiness.
